

Recent advances in cellular and molecular biology research in the animal and plant fields

DATA	Titolo	Relatore	Durata	Sede
06/05/24	Epigenetics and genetic variability, plants' response to climate change	Prof. Puglia G.	2 ore dalle 15:00	Via Empedocle, 58
07/05/24	Understanding cellular and molecular mechanisms of infant leukaemia using genome engineering	Prof. Sabrina Tosi (UK) Visiting prof. di Genetica	2 ore dalle 09:00	Via Androne, 81
08/05/24	Palio di Aeteneo			
09/05/24	Palio di Aeteneo			
10/05/24	Palio di Aeteneo			
13/05/24	A bird's-eye view on linear models, correlations and networks, and their relevance in gene expression analysis	Prof. Carmelo Fruciano	2 ore dalle 15:00	Via Androne, 81
14/05/24				
15/05/24	In vivo and in vitro studies to evaluate engineered nanomaterials' toxicity	Prof.sse R. Pecoraro/E. Scalisi	2 ore dalle 15:00	Via Androne 81
