Freiburg im Breisgau

The old university town Freiburg is the sunniest city in Germany. It is situated in the southwest of the country close to France and Switzerland.

With its historic old town and its gothic cathedral, Freiburg is considered one of the most beautiful cities of Germany. Located in the midst of an impressive landscape, the city offers its visitors ample opportunity for interesting excursions into its scenic surroundings.

Our Offer

German Courses (DE)

Enhance your German language skills during our Staff Weeks! Perfect for both work and daily life, these courses offer a fun and engaging way to boost communication and connect with colleagues.

Training for German Language Educators (DE)

Do you teach German as a Foreign Language at a higher education institution, or are you planning to do so? Keep your subject knowledge, methodology, and didactics up to date and receive practice-oriented suggestions for your in-person or online classes.

AI Literacy in Higher Education (EN)

Generative AI is transforming university life. Join our Staff Week and discuss the challenges and opportunities of AI in higher education. Gain a critical and informed framework to help you integrate these powerful tools into your daily university workflow.

From Prompt to Practice: Hands-on AI and Social Media for University Staff (EN)

This course is designed for teaching and non-teaching staff who want to use AI and social media confidently and critically in their everyday work — without needing a technical background.

Embodied Communication: Theatre Techniques for Effective Interaction (EN)

Discover the power of authentic self-expression through the dynamic interplay of body, voice, and language. Providing a supportive space to communicate with greater clarity and confidence, this course empowers you to forge authentic connections in both personal and professional contexts.

Sustainability in the University (EN)

Experience Freiburg as a 'living laboratory' for sustainable innovation. This session showcases how universities can lead the way toward a greener future by launching innovative projects and building collaborative networks.

Cycling for Sustainable Cities (EN)

Explore the power of cycling as a catalyst for urban transformation and social inclusion in Freiburg, one of Europe's leading Green Cities. Participants will uncover how strategic urban planning and innovative mobility policies can drive accessibility, participation, and social integration.

Resilience in Professional Life (DE)

Stress in the workplace is unavoidable, and we can't always control what happens around us. What we can control, however, is our reaction. This course provides you with concrete, ready-to-use tools to increase your resilience and find your inner balance.
